Nitin Bisht

+91-7895793729 bishtnitin045@gmail.com

SUMMARY

A passionate B.C.A student with interests in Machine Learning and problem-solving. Good knowledge of C , C++ and data structures. Seeking opportunities to apply my skills to real-world projects.

EDUCATION

D.D College — **Jul 2024 – Present**
B.C.A — *Dehradun, India*

The Asian School — **Completed in 2023**
XII, CBSE Board, Percentage: 52.3% — *Dehradun, India*

The Asian School — **Completed in 2021**
X, CBSE Board, Percentage: 71.5% — *Dehradun, India*

COURSE WORK

- Data Structure & Algorithm
- Operating System
- Database Management System
- Object-Oriented Programming
- Visual Basic

PROJECT

AI-Based Hiring Prediction System — **Jul 2026**
Python, ML, Scikit-learn
• Built a machine learning model to predict candidate hiring outcomes using recruitment data.
• Performed data cleaning, feature selection, model training, and evaluation.
• Compared multiple machine learning algorithms to improve prediction performance.

Hospital Management System — **Apr 2026**
VB6, MS Access(Mini Project)

- Manage **Patient, Doctor, and Billing records** with **database integration**.
- Improved **efficiency** by **reducing manual record keeping**.

EXPERIENCE

Artificial Intelligence & Machine Learning (Ongoing) — **Jun 2026 - Aug 2026**

- 3Skills

Artificial Intelligence Intern — **Mar 2026 – Apr 2026**

- Codec Technologies Pvt. Ltd.

VIRTUAL EXPERIENCE PROGRAM

Deloitte – Data Analytics Job Simulation (Forage) Jun 2026

- Completed practical tasks in data analysis and forensic technology.
- Analyzed business data to support decision-making.

JPMorgan Chase & Co. – Software Engineering Job Simulation (Forage) Jul 2026

- Completed project setup, Kafka integration, H2 integration, and REST API development tasks.
- Gained hands-on experience with backend software engineering concepts.

Johnson & Johnson MedTech – Robotics & Controls Job Simulation (Forage) Jul 2026

- Diagnosed surgical robot arm delays.
- Recommended design improvements for better robotic responsiveness.

Portfolio

Live Project : https://fakejobpostingdetection-jrcgnnyyvwphcrw2ijxjhp.streamlit.app/

GitHub: https://github.com/bishtnitin045-spec/Fake_Job_Posting_Detection

TECHNICAL SKILLS

Languages: C, C++, Python, SQL

Machine Learning: Scikit-learn, Supervised Machine Learning, Text Classification,Feature Engineering, Model Evaluation

Data Science Libraries: Pandas, Numpy, Joblib

Natural Language Processing(NLP): TF-IDF Vectorization, Text Preprocessing, Regular Expressions (Regex)

Web Framework: Streamlit

Version Control: Git, GitHub

Developer Tools: VS Code, Google Colab , GitHub Desktop, Microsoft Office
